accordance with the procedures set forth in MPEP § 708.02 (VIII)<sup>2</sup> for a new application (one which has not received any examination by the examiner).

**1. Accompanying material**

Accompanying this petition are the following documents:

(1) A declaration from the Applicant's undersigned attorney providing: (a) a statement that all claims are directed to a single invention, or if the Office determines that all the claims presented are not obviously directed to a single invention, that Applicant will make an election without traverse as a prerequisite to the grant of special status; (b) a statement that a pre-examination search directed to the invention as claimed in this application was made, listing the field of search by class and subclass, publication, Chemical Abstracts, foreign patents, etc.; and (c) a detailed discussion of the references, which discussion points out, with the particularity required by 37 CFR 1.111(b) and (c), how the claimed subject matter is patentable over the references.

<sup>2</sup>708.02 Petition To Make Special [R-2]

**VIII. SPECIAL EXAMINATION PROCEDURE FOR CERTAIN NEW APPLICATIONS—  
ACCELERATED EXAMINATION**

A new application (one which has not received any examination by the examiner) may be granted special status provided that applicant (and this term includes applicant's attorney or agent) complies with each of the following items:

- (A) Submits a petition to make special accompanied by the fee set forth in 37 CFR 1.17(h);
- (B) Presents all the claims directed to a single invention, or if the Office determines that all the claims presented are not obviously directed to a single invention, will make an election without traverse as a prerequisite to the grant of special status;
- ....
- (C) Submits a statement(s) that a pre-examination search was made, listing the field of search by class and subclass, publication, Chemical Abstracts, foreign patents, etc. The pre-examination search must be directed to the invention as claimed in the application for which special status is requested. A search made by a foreign patent office satisfies this requirement if the claims in the corresponding foreign application are of the same or similar scope to the claims in the U.S. application for which special status is requested;
- (D) Submits one copy each of the references deemed most closely related to the subject matter encompassed by the claims if said references are not already of record; and
- (E) Submits a detailed discussion of the references, which discussion points out, with the particularity required by 37 CFR 1.111(b) and (c), how the claimed subject matter is patentable over the references.

(2) One copy each of the references deemed most closely related to the subject matter encompassed by the claims if said references are not already of record.

**2. Fee**

Attached is a check in the amount of \$130.00 to cover the fees required in accordance with 37 C.F.R. 1.17(h). If any additional fees are required in connection with this matter, the same may be charged to our Deposit Account No. 50-1458.
